Mikromedia 4 Capacitive shield

PID: MIKROE-3631

Mikromedia 4 CAPACITIVE shield is the perfect way to expand the functionalities of your mikromedia 4 CAPACITIVE with 4 mikroBUS™ sockets - add any functionality from our ever-growing range of Click boards™. We are fully stocked with everything from sensors and wifi transceivers to motor control and audio amplifiers.

The board features 4 mikroBUS™ sockets and 4 mikroBUS™ Shuttle connectors. Typically, a mikroBUS™ Shuttle connector can be used in combination with mikroBUS™ Shuttle extension board but is not limited to it. Pins labeled as NC are not used on the shield, but they are routed on the mikromedia board to a corresponding microcontroller pin. For more information please check schematic files of the used hardware. Two separate 1x26 pin female sockets come with the board package.

Specifications

Type	Shield
Display size	4.3"
Display type	mikromedia,Shields

Mikroe produces entire development toolchains for all major microcontroller architectures.
Committed to excellency, we are dedicated to helping engineers bring the project development up to speed and achieve outstanding results.

ISO 27001: 2013 certification of informational security management system.
ISO 14001: 2015 certification of environmental management system.
OHSAS 18001: 2008 certification of occupational health and safety management system.

ISO 9001: 2015 certification of quality management system (QMS).
